

Content

(Classical Mechanics)

Part - A

1. Lagrangian Formulation.....	(1-71)
2. Hamiltonian Formulation.....	(72-109)
3. Poisson Bracket and Canonical Transformation.....	(110-165)
4. Stability Analysis and Phase diagram.....	(166-197)
5. Small Oscillation.....	(198-253)
6. Central Force and Kepler's System.....	(254-325)
7. Centre of Mass & Moment of Inertia.....	(326-371)
8. Rotational Dynamics.....	(372-414)

Part – B

(Special Theory of Relativity)

9. Lorentz Transformation.....	(415-473)
10. Mass Energy Equivalence.....	(474-506)
11. Relativistic Four Vectors.....	(507-519)
12. Tutorial.....	(520-539)
13. Tutorial Solution.....	(540-586)
